

# THE POCHE WEEKLY RECORD.

SATURDAY.....MAY 3, 1890.

## LOCAL INTELLIGENCE.

### COUNTY RECORDER'S OFFICE.

Business Transacted During the Two Weeks Ending Apr. 30, 1890.

Mine: Last Chance claim, Ely mining district, located March 28, by J. B. Pugh, T. Pellemounter and Wm. Cummings.

Mine: Lily claim, Ely mining district, located March 28, by J. B. Pugh, T. Pellemounter and W. Cummings.

Mine: Bismark claim, Bristol mining district, located April 4, by Louis Wunsch.

Mine: Sampter claim, Bristol mining district, located Sept. 26, 1889, by Louis Wunsch.

Mine: Mary Jane claim, twenty miles southeast of the Las Vegas ranch, located April 12, by Mrs. E. B. Kiel.

Mine: McGinty claim, Jackrabbit mining district, located April 2, by D. C. McDonald and Alex Harrison.

Mine: Detroit claim, Bristol mining district, located April 1, by Sol Hilp, Alex Harrison and D. C. McDonald.

Mine: Old Patosi claim, Yellow Pine mining district, located April 3, by E. A. Shear, Chas. Lytle, Geo. B. Warren, G. I. Huddleston, J. L. Hayes and Oliver Rose.

Mine: Six O'clock claim, Ely mining district, located April 16 by J. Poujade.

Mine: Old-timer claim, Ely mining district, located April 17, by R. G. Schofield and J. Spillman.

Mine: Green Isle Co. claim, Ely mining district, located April 17, by R. G. Schofield and Jacob Spillman.

Deed: Henry Welland to Mrs. Jane Higgins, dated April 9, 1890, conveys lots 54 and 55, block 20, with improvements, consideration, \$225.

On Thursday of last week Sheriff Turner and Deputy Smith having received definite information through Tony, a Lake Valley Indian, to the effect that Lang the one-armed prisoner who lately escaped from the county jail here was at or near Coyote Springs about twenty-five miles westerly from Pioche, started out to bring him in. On reaching Coyote they found that the fugitive had recently gone thence with James Service's cattle herders, to Rattlesnake Springs twenty miles southerly. Arrived at the latter point, it was found that the cattle camp had just been moved five miles further on. The camp was at last reached; and it was found that Lang was either there at that time or very recently. He soon moved on however as his tracks indicated in the direction of White River. The officers returned, lacking feed for their horses, and therefore considering it impossible to pursue the fugitive. They reached town on Saturday.

Every once and a while, a word, not in common use, comes floating into town and is eagerly pounced upon by our dudes. A few days ago one dude met another on Main Street, and being jealous of his outer garments and general get up, exclaimed: "Why, chippie, what an egocephalus you are." Dude No. 2 fainted and had to be taken to the Drug store for repairs. He will be out on the streets again as soon as his new suit arrives.

A bottle of Trib should be in every household.

Jim Mocks and Bob Martin left town Wednesday for the railroad in Clover Valley. Judging from the piled up buggy seat, and the neck of a bottle peeping out of the hind end, they must surely intend starting business in that locality.

Many of our citizens are planting shade trees. This is a step in the right direction and should be followed by our community at large. Nothing gives a more pleasing aspect to a town than plenty of shade trees.

During the week daily services have been held at the Catholic Church. It is so long since religious services of any kind have been held here, that our population was fast drifting into the days of the dark ages.

The Judge's Chambers at the court house have been cleansed, whitened and recarpeted in anticipation of the arrival of Hon T. H. Wells to preside at the next session of court.

Eggs are selling at unusual prices for this time of the year. The hens must have joined the noble army of strikers, and are scratching for a higher allowance of feed.

May is here and no picnic yet.

## SURFACE INDICATIONS.

Silver, \$1.05. Lead, 3 90.

A Bottle of Trib should be in every household.

Tommy Edwards is giving his saloon a pretty thorough overhauling.

The furnace has turned out 41 tons of bullion since the 22nd of last month.

Jim Smith and Spiro Dockleitch have opened a general merchandise store at Clover Valley.

Schaefer & Stein, of the Pioche Brewery, received during the week a carload of malt.

Teams have been put on during the week hauling ore from Jackrabbit and slag from Bristol to the furnace.

The late rise in silver and lead makes a difference of over \$150 per day in the bullion produced at the furnace.

It is said that our County Clerk has issued four marriage licenses and that two more have been applied for.

Services will be held in the Catholic Church to-morrow (Sunday) at 10:30 A. M. and 7:30 P. M. Sunday School at half past one.

Rumor reached town Thursday that work was to be suspended on the railroad, but our latest advices are that they have not enough men and want more.

The Yuba Company are sending a force of miners to their Day mine at Jackrabbit and several large teams have been engaged to haul the ore to the furnace.

If the citizens of Clover Valley are desirous of subduing the rough element in that section, they will do well to secure the services of Dick Huddleston as a Deputy Sheriff.

The scholars and teachers of the Pioche public schools had a May day feast on pi-nuts, Thursday at 10:30 A. M. The donor must have had a grudge against the teachers, for the school rooms were literally strewn with shells in short order.

Anthony Godbe is overhauling the old Flag mill at Bullionville for quicksilver. Old man Morgan is also engaged in the same business at the 30-stamp mill and is said to be making from \$20 to \$50 per day. Apropos of the above, since the closing of the Bullionville quartz mills where the greater portion of the ores of this camp were treated in early days, a small fortune has been secured in quicksilver by chloriders.

Wm. Lloyd, John Sneath and Alex Orr having secured a lease on the old Burk mine, from which a large amount of money was taken in the palmy days of the camp, have been quietly prospecting the lower levels during the past year at considerable expense. The boys nerve and faith in the old mine, we are pleased to state, has been amply rewarded by a rich strike between the 3rd and 5th levels. The ore is in virgin ground, the width of the ledge being ten inches. Samples of the ore went over \$3,000 per ton, the average of the ten inches being 811 oz. silver, and 3 oz. gold. Further west on the same ledge they have uncovered 18 inches of ore that averages 200 oz. per ton.

Dick Huddleston having spent the winter months in prospecting through the southern section of the county, is sanguine of having made some valuable locations, among which may be mentioned the old "Potosi mine" situated in Timber mountain, Yellow Pine mining district. Dick's co-partners in the claim are Chas. Lytle, Geo. Warren, E. A. Shear, Oliver Rose and J. L. Hayes. The mine was located a good many years ago and was worked at various times by different parties. The mine is a little mountain of almost pure lead, but as it carries little silver, it will not pay to ship any distance. The advent of a railroad through that section however will make it one of the greatest bullion producers on the coast. The ore on the dumps is variously estimated at from 200,000 to 300,000 tons.

Rev. Father Quigley, of Salt Lake, arrived in Pioche Monday, much to the delight of several of our fair sex who were particularly waiting his advent to tie the knot which makes two hearts beat as one.

John Bingham has struck it rich in his claim about two miles from town. Fine galena ore is found within a few inches of the grass roots, and the whole surface needs only uncovering to show up well.

Dave Service came in Monday from Irish Mountain; he reports a few men at work on the Bonanza taking out ore.

During the absence of Mr. Wertheimer in San Francisco Mr. Cohen will have charge of the store.

## A WESTERN CARNIVAL REX.

Ogden, Utah, the Capital of the New Domain.

The Council of the Royal Host of the Crescent City has selected Ogden, Utah, as the Royal Capital of the Western Kingdom, which includes all the States and Territories west of the Rocky Mountains. The RECORD is officially notified that the edict erecting the Western Empire has been issued and that Rex II has been invested with royal prerogative to rule with moderation, justice and intelligence the great and loyal subjects of the newly created Kingdom.

In accordance with this prerogative Rex II has issued a Royal mandate enjoining upon his subjects the importance of attending the Rocky Mountain Carnival to be held at Ogden during the week commencing Monday, June 30th, and ending Saturday, July 5th.

All railroads throughout the Kingdom will make a special round trip rate. The Carnival palace is being constructed and will be built after the style of the Roman arena. The floor will accommodate 1,000 couples. There will be twelve tiers of seats encircling the ring, which will seat 10,000 people. The street pageant on the 4th of July will be one of the grandest displays ever seen in the western country. The militia of Nevada and of other Pacific Coast States will be asked to attend and only persons in military or naval uniform will be permitted to join in the dance.

### ADVERTISED LETTER LIST.

List of letters remaining in the Pioche Post Office uncalled for May 1, 1890.

### FOREIGN.

Bartolomeo John Biale P.  
Bazzano Giuseppe Mateovich Marco  
Morvito Silir Pietro Venturini (2)  
Tognetti Pietro Vardina Lew

Persons calling for any of the above letters will please say "advertised."

JOHN SHIER, P. M.

John Osborne, an old-time prospector, came into town a few days ago bringing some fine specimens of ore which he had unearthed in the neighborhood of Stampede gap.

The Misses Clara Warren, Lotta Tucker and Emma Tucker arrived by Thursday's Milford stage. The have been attending St. Mary's school at Salt Lake.

The regular monthly meeting of Pioche Hose Co. No. 1, will take place next Wednesday evening, May 7, at 7:30 o'clock. A full attendance is requested.

The regular monthly meeting of the Board of County Commissioners will be held next Monday. Present your bills to the Clerk of the Board to-day.

L. Wertheimer and family, left by stage Wednesday morning for Milford en route for San Francisco. Mr. Wertheimer will return about the 1st of June.

### AN EMBARRASSING MISTAKE.

A Pillow Slip That Would Not Hold Flour.

The Nevada, Cal., Herald relates the following:

One of our handsomest young ladies was terribly upset by a little mistake she made other day. Going in a hurry for some flour to a store on Main Street she took what she supposed to be a clean pillow-slip from a bureau drawer. She bounded into the store, smiling like a basket of cups, and handed it to the Apollo like clerk to be filled with flour. He didn't notice what was going on until a scoop of flour had gone through it. When he raised it up and displayed the two outlets at the bottom, widely fringed, the young lady lit out without saying a word, and the clerk, covered with flour, laid the garment in the money drawer and waited her return, which had not eventuated up to the hour of going to press.

## PANACA ITEMS.

Crops are growing nicely.

Solomon Wardell returned last Monday after several months absence to Parowan.

John Wedge is enlarging his Store-building and making other improvements preparatory for the railroad.

Two of Thos. Clark's children have been very sick, but are slowly recovering now.

The weather has been exceedingly warm by spells during the past few days.

A company of R. R. graders having finished a contract on the Desert, passed through here Wednesday, for Dutch Flat, where they have another contract.

Wm. Mullins, who has been out with a surveying party for the past four or five months returned home Sunday evening. Bill says the weather is getting uncomfortably warm for railroad building.

Geo. Riding and Miss Chrissie [Syphus started for St. George, Thursday, matrimonially inclined and will return in about 10 days. We join with their many friends in wishing them a long and happy married life.

John Edwards recently made a flying trip to Beaver, Utah, and on returning home said he had not changed his name but that he had been a party to a contract in which a young lady, Miss Lizzie Wardell, changed hers. Mrs Edwards will be here in about a month when they will begin housekeeping.

Mr. and Mrs. Alfred Godbe have been spending a short time in Panaca, so also have Anthony Godbe and R. Zacho, the latter one still being in the "Matrimonial Market", so he says, but our young ladies are not anxious to purchase as the price seems rather high. The former has not as yet publicly announced himself as a candidate for matrimony but has hinted that he could easily be persuaded to enter the field.

A gentleman of the tramp fraternity not finding anyone hospitable enough to ask him in to spend the evening, opened the school house, and walked in; after making a fire he stretched himself out on the floor to sleep, and spent a very comfortable night till about 6 o'clock next morning, when he was discovered by Bp. Lee, who kindly invited him to vacate. This he did. He next visited a family where he began to give his orders for breakfast, when the man of the house stepped in and politely informed him that he had not called at a Restaurant, and had better move on. However before leaving town, he got breakfast and two or three other meals.

A Bottle of Trib should be in every household.

## COLORADO CANYON.

Rich Gold Veins Found in Its Steep sides.

A Denver dispatch says: It now appears that the sole reason why Harry McDonald deserted the exploring expedition in the Grand Canyon of the Colorado was on account of rich quartz discoveries. He quit the party in the canyon and made his way to Kanab, Utah, where he made known the new finds, organized a company of prospectors, and they are now in the canyon in force, the news having leaked out and a general stampede being the result. It is said that 400 miles of the canyon show a wealth of precious minerals, and assays from specimens obtained on a trip down the river demonstrate that these veins are all of remarkable richness. The action of the water has worn smooth the sides of the canyon and the vein matter is clearly discernable to the naked eye.

Placer gold is found nearly the entire length of the river. Every point panned produced color, and in places the bars were found to contain coarse gold in surprising quantities. Mr. Stanton the commander of the expedition, says the placers could be easily worked, because there is no lack of water facilities. A short distance below Lee's Ferry the expedition ran across Jack Summer, a member of Major Powell's original expedition in 1869, washing out gold in a primitive way and taking out from \$5 to \$10 per day.

If there be one thing upon this earth that mankind love and admire better than another, it is a brave man—it is a man who dares to look the devil in the face and tell him he is a devil.

### A Floral Tower.

A miniature Eiffel Tower, 125 feet high covered entirely with flowers and crowned with a 75 candle power electric light is among the floral designs at the sixth annual Flower Festival at Los Angeles.
